**FSS ProGuard Dry Product Line**

*Green Technology Corrosion Inhibitor for Fire Suppression Systems*

**Huguenot Laboratories FSS ProGuard Dry Product** is a unique proprietary formulation of corrosion and bacteria inhibitors that provide maximum protection of “hard-to-reach-areas.” This highly inhibited technology allows for long term superior corrosion protection of air gap areas that are typically found in wet and dry sprinkler systems.

*When FSS ProGuard Green Product* is placed in a hydrostatic environment, it provides unsurpassed corrosion protection in water, air interface, and above all liquid levels. *FSS ProGuard Green Product* acts as a Corrosion Inhibitor protecting complicated values and the interior surfaces of piping and sprinkler components often difficult or impossible to reach.

### Product Properties

- **Appearance:** Clear Straw Yellow Liquid, Odor Nil
- **Specific Gravity:** 1.12
- **Flash Point:** None
- **pH (0.2-0.5% BV):** 7.0
- **Biodegradability:** 100% Biodegradable By Present Standards
- **HMIS Rating:** 0-1, 0, 0

---

### Use Information

- **Light Concentration:** 0.1% By Volume (1-Gallons per 1,000-Gallons)
- **Heavy Concentration:** 0.4% By Volume (4-Gallons per 1,000-Gallons)
- **Temperature:** Ambient through 140 °F.
- **Contact Time:** Contact Time is best achieved after the system has been properly cleaned. A minimum a 4 - hour soak time is recommended for dry or preaction fire systems.
- **Precautions:** May cause irritation to the skin and eyes upon contact. **AVOID CONTACT**
  FOR INDUSTRIAL AND COMMERCIAL USE ONLY
- **Weight:** Bulk, 30 Gallon Plastic Containers- 227 lbs per 30 Gallon Drum
- **Dimensions:** Diameter – 19 ¾ inches  Height – 30 ¾ inches
- **Country of Origin:** USA
